Friends, Countrymen and felling Citizens.

YOU have tought, you have oftablished your independence, and you ought to be free. But, behold a fet of arthorats, demagogies, configrators, and tyrans, have arisen up, and say you shall be governed. Is this to be endured by free-men-men, who have lain in the own air, exposed to coid and

tyrans, have arrien up, and fay you shall be governed - Is this to be endured by free-men-men, who have lain in the open air, exposed to coid and hanger, men who have worn out their health and constitutions in marches and counter marches from one end of the continent to the other; and after they have entended, are they to fit down tamely and be governed? Of what fervice is a man's liberty to him, unies he can do as he pleafes. And what man can do as he pleafes, who lives under a government? The very end of government is to bind men down to certain rules and duttes; therefore 'tis only fit for slaves and valids.— Every freeman ought to govern himself, and then he will be governed most to his own mind.

Thus, my frends, you see all government is tyranical and oppressive. In the next place it is insulting: It is as much as to tell us, we know not how to take care of ourselves, and therefore should Gabmit to be directed by others, who are appointed as guardians over so many wards. Now of what afe can our reason be to us, if after we have come (or ought to bave come) to years of discretion, we are fill to be led, guided, and bandied about by those who pretend to know better than we? And, who pray are the who are to be thus led, guided, and bandied about by minery or an hundred arisfocrarical, demagogical tyranical conspirations! !- Would it not be more according to order, propriety, and the nature of things, that the millions of nearle.

In the third place, all government is expensive; for these minery or an hundred conspirators flouid be led united, and bandied about by the tree millions of nearle.

In the third place, all government is expensive In the third place, all government is expensive; for these ninety or an hundred conspirators will not govern us for nothing, they must be paid for it.—Think on that, my countrymen, we must not only be governed, be insulted by being governed, but we mad not be demagogue. For coming from all parts of the continent, to lay their heads together how to govern us most effectually—for this, we must pay them mileage, pay them wages, sill their purses, supply their tables to keep them in idenses to riot on the sat of the land, to pl. t, contrive and juggle us into good o der and government. Now all this money might be save I to the public, by each man governing himself, and doing as he pleased, which by nature he has a right to as he pleased, which by nature he has a right to

as he pleafed, which by nature he has a right to do.

Oh my countrymen! my bowels yearn with affliction, when I think to what a pass we a elively to come. When I think, after all we have done and effered for dear liberty, we must fill be kept ino der, and governe! I had hoped, after our glorious freaggle, this country would be an afytum for all those noble, untamed spirits, who were definous of flying from all law, cospel, and government. But alsa! after all I have faid and written, after all the invention I have faid and written, after all the invention! I have faid and written, after all the invention! I have faid and written, after all the invention! I have faid and written, after all the invention! I have faid before you, you are fill unroused, and I have made no impression on any, except a few of those choice privits at Carliffe. And how have these been treated by the configurators and federalitis 4 they have been called infurgents, rioters tories, and British Geferters, and to their credit be it tpoken, —they deferted from King and country, friends and relations, wives and child en, to come here and he free -they expected we were to be a free people, and they have come among us to live at large, and do as they please. —Think then how diappointed they must be and how peculiarly hard their case is the of they here and be governed or return and be hanged!

Rouse then, my friends, my countrymen, my

their to flay here and be governed or return and be hanged!

Roufe then, my friends, my countrymen, my fellow citizens to Roufe, ye Shayites, Dayites, and Shattuckires! Ye influrents, rioles, and deferters! We torse, refugees, and antifederal-life. Roufe, and kick up a dail blore it is too late! Be not then a parcel of furpid, dunder-headed, bloocheads.
